YOUNG EXCELLENT LEADERS ACADEMY (YELA)

YELA is a value-based leadership programme. It is the second level of engagement (our sustainability model) through which REVAMP Africa equips selected participants with stronger leadership skills to become peer educators and positive influencers in their schools.

It also provides a platform for young people in secondary schools to be involved actively in social impact initiatives for community development. The format makes the programme to be both activity-based and project-based learning.

OUR METHODOLOGY

SCHOOL INFRASTRUCTURE DEVELOPMENT PROGRAMME

The School Infrastructure Development Programme (SIDP) is a platform designed to support schools in providing conducive learning spaces for the students.

We are supporting government in ensuring that young people can learn in a suitable environment and have access to adequate reference materials for learning.

These include:

Classroom renovation and remodelling
Equipping/Renovating School Libraries, etc.

In February 2020, we provided 60 new table and chairs for 120 students of Ilupeju Junior Grammar School, Lagos.

OUR METHODOLOGY

TEENS ENTERPRISE SUPPORT PROGRAMME

The TES programme develops the capacity of these underserved teenagers, who cannot further their studies for economic reasons. It equips them with some technical and soft skills to become self-employed.

These skills will give them easy access to the market, enabling them to be able to start, manage, and grow their business. The platform allows for them to become self-sufficient to pursue their dreams, continue higher education, even when there is little or no external financial support.

The TES programme approach will help these young ones gain both financial literacy and entrepreneurial skills.
