## IMPACT REPORT

# RAISING TOMORROW'S LEADERS, TODAY...

## LETTER FROM THE FOUNDER

As I reflect on 2021, I am full of gratitude to God for an impactful year. It was indeed a lot of work, and we made significant progress.

We had multiple projects running simultaneously. Looking back, it is amazing to see how much time, effort, and resources were committed to the work.

Your support made us reach over 33,517 youths across 26 states in Nigeria through our Excellence In Character and Academic Performance Program (ECAP). This noble feat helped increase our total direct reach to over 158, 036 youths.

We achieved a major milestone in implementing our Teens/Youth Enterprise Support Program (TYESP) for the first time. It was indeed a dream come true to see 60 youths trained on basic tech skills – Website Development, Social Media Management and Graphics Design.

Through our School Infrastructure Development Program (SIDP), 900 school desks were provided for 18 secondary schools. We also built 10 toilets for two public secondary schools.

We are deliberate about raising tomorrow's leaders, today and we are not resting on our oars.

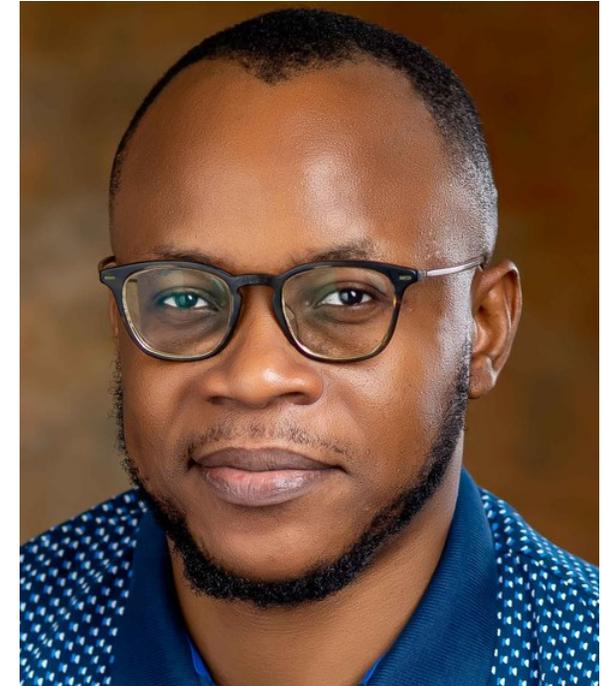

As an organisation, we understand that the work that lies ahead of us is more challenging. There are over 10 million youths in secondary schools in Nigeria and we have barely scratched the surface.

On behalf of our board of trustees and the hundreds of thousands of children and youths we serve, I would like to appreciate our individual donors and corporate partners (Access Bank Plc/ and Nestle Nigeria Plc. for their consistent support these years.

To our exceptional administrative team, and zealous volunteers across the country, I'd say thank you twice!

We look forward to a more impactful 2022!

# TESTIMONIAL

“

The Teens and Youths Enterprise Support Programme (TYESP) was a game-changer for me. I enrolled in Graphics Design and Website Development training.

Few months after the training program, I teamed up with one of my fellow participants. We started designing for clients and got paid for it.

I started sourcing clients for website design. Today, I have international clients I have helped revamp their websites or built from the scratch. Thank you REVAMP Africa for the platform to learn these skills and the post-training support.

# TESTIMONIAL

“

The Teens and Youths Enterprise Support Programme (YESP) gave me a headstart on many things that others would have paid a lot of money for.

Today, I handle graphics designs and photography in my Church. I plan on starting my business after I graduate from secondary school, as I am building my network already. I also handle business social media pages now.
